Get to know MARINA by Fiamma, small but powerful!
Built with professional components, for the perfect espresso.

Professional taps and handles

Hot water tap and steam wand, robust and reliable.

Static pre-infusion

Brass group with static pre-infusion, heat exchanger system. Perfect thermal stability!

MARINA CV DI

Enjoy an excellent extraction with the Plug & Play version, requiring no water connection.

MARINA CV

Easy to use, with pre-programmed doses and volume counter (CV).

MARINA

The traditional and simplified version, without compromising on the quality of espresso. Marina in its semi-automatic version.
